# BUILDING FUTURE LEADERS

## School Aged Before & After School

Children will expand their learning beyond the classroom. We use a balanced curriculum with opportunities for character development, STEAM activities, community service, and physical activity. We are here to provide your child with a safe, caring environment full of fun and learning! Learning doesn't stop after the school day ends. The Y provides the academic support needed to help students achieve their full potential. Each day is filled with educational activities that also incorporate health education, games, team building, homework support, and leadership training.
