ABOUT Y LEARNING ACADEMY

Focus on Education and Safety

We use a balanced curriculum with opportunities for character development, STEM activities, arts and humanities, community service, and physical activity. As we all face a new learning landscape, the largest component of the day will be focused on tutoring and homework help. Our facility is equipped to support your students on our wifi as needed, and our goal is to provide a safe and caring environment where your student can continue to expand their learning and complete work given by their teachers with the aid of our trained staff. We are committed to furthering your child's success while nurturing their spirit, mind and body.

DATES

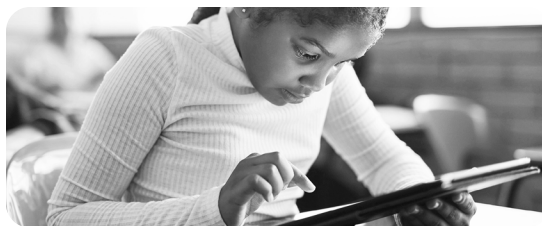

Learning Academy begins on August 17th and will last through the school year. As modifications are made to school plans, we will adapt our programming to meet the needs of our families in the most accessible way possible. Any changes will be communicated as they are confirmed.
